

Photo Request/Delivery Guidelines

Because we have both the PC and the MAC, we can handle just about any image format, as long as it's high resolution.

When we're requested to send an image, please be sure to ask the printer what file format and resolution is desired.

This is especially important for screen printers and it saves a lot of time and effort on everyone's part.

Resolution for Graphics	High resolution, i.e. at least 300 dpi	Images from Web sites are usually 72 dpi jpegs and not usable for printed material. Higher resolution images or sites that allow you to download images work better.
--------------------------------	--	--

File Type	tif / eps / psd ai / jpg / pdf	IMPORTANT: if an .eps file is requested, be sure to ask if they want a Photoshop .eps or an Illustrator .eps (we can handle either).
------------------	-----------------------------------	--

Graphics Programs Used	Photoshop CC Illustrator CC
-------------------------------	--------------------------------

Operating Systems	Windows 7
--------------------------	-----------

Mode of Delivery	E-mail / CD Via our website	We can accept/send through e-mail up to 5 MBs; More than that the files need to be sent zipped, one-at-a-time or on a CD. e-mail: signs@mqb.com Website: http://signs.mqb.com/TEST/contact.html
